PROFESSIONAL SUMMARY

Full Stack Developer and Computer Science undergraduate (Expected Graduation: 2027) with proven experience building scalable web applications, AI-powered solutions, and interactive user experiences. Through internships, hackathons, freelance work, and personal projects, I have gained hands-on experience in full-stack development using React.js, Next.js, Node.js, Express.js, MySQL, MongoDB, REST APIs, and modern JavaScript technologies, along with cloud deployment and infrastructure management on AWS. I enjoy solving real-world problems by combining clean design, scalable backend architecture, and practical software engineering principles.

AREAS OF INTEREST

- Full Stack Web Development (Frontend, Backend, UI/UX, REST APIs, Databases)
- Data Science & Analytics (Machine Learning, Data Visualization, NLP, LLMs)
- Artificial Intelligence (Generative AI, Web Scraping, Business Intelligence)

EDUCATION

Dr. Mahalingam College of Engineering and Technology, Pollachi | Anna University **2023 – 2027**
Bachelor of Engineering in Computer Science and Engineering | CGPA: 7.4

Rajalakshmi Genusamy Matriculation Higher Secondary School, Pethappampatti **March 2023**
HSC | Tamil Nadu State Board | Percentage: 75%

Rajalakshmi Genusamy Matriculation Higher Secondary School, Pethappampatti **March 2021**
SSLC | Tamil Nadu State Board

SKILLS

Technical Skills

- **Languages:** Java, Python, C++, C
- **Frontend:** React.js, Next.js, HTML5, CSS3, JavaScript
- **Backend:** Node.js, Express.js, Spring Boot, REST APIs, NextAuth.js
- **Databases:** MySQL, MongoDB, SQL, Prisma ORM
- **Tools & Technologies:** Git, Docker, AWS, Postman, Vercel, Hostinger, WordPress, WooCommerce
- **Concepts:** DSA, OOP, CI/CD, Agile Methodologies, System Design
- **Data & AI:** Machine Learning, Data Visualization, LLMs, Web Scraping, Generative AI, Crawl4AI

Soft Skills

- **Communication:** Clear verbal and written communication.
- **Problem-Solving:** Analytical thinking and root cause analysis.
- **Quick Learner:** Adaptive to new technologies and tools.
- **Team Collaboration:** Works effectively in Agile teams.

EXPERIENCE

Freelance Web Application Developer **June 2026 – Present**

Self Employed (Client - Sri Vari Silks)

- Developing a production-ready e-commerce web application for a textile business using Next.js, Node.js, Express.js, and MySQL with Prisma ORM, enabling customers to browse products, manage accounts, and complete secure purchases through a fully responsive online store.
- Implementing secure authentication with NextAuth.js, integrating the Razorpay payment gateway and Nodemailer email notifications, and designing RESTful APIs with Prisma and MySQL to deliver smooth navigation and business-specific functionality across desktop and mobile devices.

ZEPHYR TECHNOLOGIES, BENGALURU, KARNATAKA

June 2026

Cloud Computing Intern (15 Days)

- Gained hands-on experience in AWS cloud infrastructure, networking, Linux server management, and secure cloud deployment during a cloud computing internship.
- Worked with EC2, VPC, S3, RDS, IAM, CloudWatch, Load Balancing, and Auto Scaling to design and deploy scalable cloud environments.
- Practiced configuring cloud networks, servers, storage, user access, security settings, and database connections, improving practical knowledge of cloud setup and infrastructure management.

NEHA SOLUTIONS, POLLACHI, TAMIL NADU

June 2025

Web Development Intern (15 Days)

- Built and maintained full-stack web applications, contributing to backend integration, REST API development, and database management.
- Developed responsive web pages using HTML5, CSS, and JavaScript, improving cross-browser compatibility and mobile responsiveness.
- Participated in Agile sprints and CI/CD workflows using Git for version control and deployment.

KRIV TECH SOLUTIONS, COIMBATORE, TAMIL NADU

Nov 2024 – Jul 2025

Video Editor (8 Months)

- Produced promotional ad videos and visual content for client social media campaigns, applying motion graphics, transitions, and brand-consistent storytelling to increase audience engagement.
- Delivered high-quality video edits with subtitles, effects, and audio sync across multiple formats managing end-to-end production from raw footage to final publish ready output.
- Collaborated with marketing teams to align video content with campaign objectives, consistently meeting tight turnaround deadlines across 10+ client projects.

PROJECTS

Campus Management System – Reverse Engineering Project & Redesign

Aug 2025 – Dec 2025

Technologies: React.js, Node.js, Express.js, MySQL, JWT, REST APIs, Firebase, Cloudinary

- Reverse-engineered an existing campus management system to analyze its workflows, architecture, and limitations before redesigning it with a more scalable and maintainable backend.
- Implemented attendance tracking, grievance handling, course management, grading modules, and a centralized admin dashboard.
- Built a full-stack CMS with three role-based portals (Student, Staff, Admin), managed academic records for 100+ students.

Company Intelligence AI - Infynd Solutions Hackathon 2025

Dec 2025

Technologies: Python, Ollama, Qwen LLM, Web Scraping, Crawl4Ai

- Built an offline AI-powered platform that analyzes one or multiple company websites and automatically generates structured business intelligence from publicly available website content.
- Designed a parallel web scraping pipeline that processes multiple company URLs simultaneously, extracts unstructured information, and uses a locally hosted Ollama Qwen model to summarize and classify company data without relying on external APIs.
- Built an analyst-friendly dashboard with data visualization to present actionable company intelligence in a structured format.

3D Dual Portfolio Website

May 2026

Technologies: Three.js, Vanilla.js, HTML, CSS

- Built a 3D interactive dual portfolio website showcasing full-stack development projects and video editing work through separate professional sections.
- Implemented smooth scroll animations, 3D visual elements, video previews, project cards, resume download, and contact forms to improve personal branding and user engagement.
- A creative transition from the Full Stack Profile to the Video Editor Profile, enhanced with sound effects and click sounds for an immersive experience.

Valorae - Premium Authenticated Collectibles Platform

May 2026

Technologies: React.js, Node.js, MongoDB, Three.js, Vanilla.js, HTML, CSS

- Building a collectibles marketplace for premium digital and physical collectibles, featuring QR-based product verification to help authenticate items and improve buyer confidence.
- Developing the application using React.js and Node.js, focusing on responsive user interfaces, REST API integration, scalable backend architecture, and auction-based marketplace workflows.

Zodiac BGMI - Gaming Training Platform

Sep 2025

Technologies: Figma

- Developed a gaming-focused BGMI training platform where players can access tips, tricks, drills, gameplay strategies, and connect with professional trainers.
- Created responsive pages for training content, community, trainer profiles, and paid course booking, enabling users to learn BGMI skills through structured digital content.

CERTIFICATIONS

- Usability Engineering - NPTEL
- GenAI Powered Data Analytics - Tata (Forage)
- Data Science - British Airways (Forage)
- Front-End Engineering - Skyscanner (Forage)
- UI/UX Design - GUVI

ACHIEVEMENTS

- Developing a production-ready e-commerce web application for Sri Vari Silks as a Freelancer using Next.js, Node.js, Express.js, and MySQL with Prisma ORM.
- Worked as a Part-Time Video Editor at Kriv Tech Solutions, creating promotional videos and social media content for multiple client projects.
- Participated in the 36-hour Infynd Solutions Hackathon 2025, built an AI-powered Company Intelligence platform using Python, Ollama, Qwen LLM, and web scraping.
